The Ultra-Premium Preparation Track for Doon, Mayo, Rishi Valley & DAIS

The Ultra-Premium Preparation Track targets elite boarding schools like The Doon School, Mayo College Ajmer, Rishi Valley School, and Dhirubhai Ambani International School (DAIS), where admissions demand top-tier academic prowess, reasoning, and holistic skills.

Doon School Admission Essentials

Doon admits boys into Classes VII (age 11-12 by Sept 2026) and VIII (12-13), with registration closing July 10, 2026, and the main entrance exam on August 9, 2026, at multiple centers. The process includes a 4-hour written test (English, Math, Science, Reasoning—1 hour each), followed by interviews in Nov-Dec 2026; results finalize by January 2027. Math emphasizes algebra, geometry, exponents, and problem-solving up to Class 7 level.

Mayo College Key Requirements

Mayo College seeks boys for various classes via an offline Aptitude Analysis (English, Math) notified in August prior to admission year, with sample papers provided post-registration (₹25,000 fee). Admissions hinge on test performance and parent-child interaction, with the session starting early April; Class XI needs 90%+ in Class X boards. Syllabus covers Class 9-level arithmetic, geometry, grammar, and GK.

Rishi Valley Process Overview

Rishi Valley opens admissions September-November for Classes 4, 6, 7, and 11, with exams in February-March 2026 focusing on English comprehension and Math computation from prior classes. Interviews follow to gauge fit for their experiential, nature-based learning; expect NCERT-aligned topics like basic operations, fractions, and reasoning.

DAIS Entry Stages

DAIS uses a two-stage test for IBDP Class 11: Stage 1 MCQs (90 mins: Logical Reasoning, Math, English); Stage 2 descriptive (3 hours: English, Math, Science/Social Studies). It prioritizes analytical skills over rote learning, drawing from Class 6-9 NCERT Math (percentages, algebra, data handling).

Ultra-Premium Prep Roadmap

This track aligns with 2026 timelines (register now for Doon/Mayo; prep intensifies for Feb-Aug exams), blending diagnostics, daily mastery, mocks, and mindset coaching across schools.

Phase (Months)	Core Focus	Key Skills Drilled
1-2 (Foundation)	Diagnostics + Basics	Exponents, fractions, geometry (Doon/Mayo)
3-4 (Acceleration)	Application Drills	Word problems, reasoning (Rishi Valley/DAIS)
5-6 (Mocks & Polish)	Full Simulations	Past papers, interviews, speed math
7-8 (Peak Mastery)	Revision + Strategy	GK integration, holistic profile building

Expect 80-90% syllabus overlap in Math/Reasoning; track progress via personalized analytics for 95%+ readiness.

Parents targeting these ultra-selective seats (limited spots, 10:1 competition ratios) often seek proven, adaptive programs that mirror official patterns—like those delivering 180+ selections across Doon, Mayo, and peers. Explore tailored cohorts at truemaths.com/school to elevate your child's edge discreetly.
